1. The old German airfield at Dabie is out of operation; all buildings and installations have been dismantled.
2. The Russians are now building a new airport in the woods near Zalom in the area where a former German underground airplane motor factory was located. The factory allegedly is now being used by the Russians.
3. The new airfield is located in the woods east of Szczecin on the east banks of the Dammnische See and north of the old airfield at Dabie. The area covered by the airport is camouflaged with nets. The large grain silo on the banks of the Dammnische See, 15 kilometers due north of the airfield, is a landmark.
4. The field will extend to the banks of the Dammnische See where hangars for seaplanes have been built.
5. About 700 workers are employed at the airfield; the majority live in emergency billets near the field.
